

Cisco 7905G and Cisco 7912 Reference Guide

91031

1	LCD screen	Displays features such as the time, date, your phone number, caller ID, call status, and softkey tabs.
2	Cisco IP Phone series type	Indicates the Cisco IP Phone series to which the phone belongs.
3	Softkeys	Enable you to engage any of the functions displayed on the corresponding LCD screen tabs. Softkeys point to feature options displayed along the bottom of the LCD screen. Softkey functions change depending on the status of your phone (for example, if the phone is active or idle).
4	Navigation button 	Enables you to scroll through text and select features displayed on the LCD screen. Also provides access to speed dial numbers when there are no text or features to scroll through.
5	Menu button 	Provides access to phone services and settings such as messages, directories, contrast, ring sound, network configuration, and status information.
6	Hold button 	Puts a current call on hold or takes a call off hold.
7	Dial pad	Works exactly like the dial pad on a traditional telephone.
8	Volume button 	Increases or decreases volume for the handset and speaker. Also controls the ringer volume (if on-hook).
9	Handset	Functions like a traditional handset. The light strip at the top of the handset blinks when the phone rings and remains lit to indicate a new voice mail message (depending on your message system).
10	Footstand	Allows the phone to stand at a convenient angle on a desk or table.
